

SAVING THE WORLD - ONE CUSTOMER AT A TIME...

Why You Should Always Choose OEM Original Hydraulic Components Pumps, Motors & Valves

The best way to guarantee your customer's machine utilization rates is to only supply GENUINE ORIGINAL OEM COMPONENTS when repairing or upgrading equipment.

We directly support industry leading manufacturers like:

Bosch/Rexroth, Parker, Vickers, Atos, Calzoni

Aftermarket or "Grey Market" replacement products install more doubt than confidence.

Genuine Replacement Product is important because:

- Updated Product Designs
- Original Product Specification Integrity
- Better Machining Tolerances = Improved Efficiency
- Less MRO Activity = More Machine Uptime

Updated product from Original Manufacturers includes design upgrades not always visible to the End User. Aftermarket companies are not privy to these subtle design features that can impact product performance in meaningful ways.

Original product has an integrity predicated on OEM specifications. Original OEM with correct material & manufacturing tolerances result in greater product efficiency and superior long-term performance.

LESS TIME SPENT REPAIRING, MEANS MORE TIME PRODUCING, WHICH GOES STRAIGHT TO YOUR BOTTOM LINE!

This is why ETS will only sell Original OEM Product!

THE SUPERIOR QUALITY OF ORIGINAL PRODUCT!

Our online store inventory has millions of dollars of Bosch/Rexroth, Parker/Calzoni, Atos, Hydac & Vickers

ONLY GENUINE ORIGINAL PRODUCT!
